30 NOV: Giuliani presents to Legislators

15 DEC: Senate subpoenas Maricopa for all election equipment & records

18 DEC: Maricopa sues to fight the subpoenas

27 JAN: Maricopa orders an "audit" from ProV&V and SLI

08 FEB: Sen Boyer (R ino) votes prevents contempt charges

23 FEB: Maricopa "audit" found no issues

Note that these audit companies are the Voting Systems Testing Labs, ProV&V and SLI (see my [trusted build article](#)). These companies MAY face liability if they reveal election fraud. So, it's not surprising that they didn't find anything. It's their job to call everything amazing and super compliant.

26 FEB: Maricopa County loses their subpoena fight in court as a judge rules that they must provide the election equipment and records. *(Spoiler: They still don't.)*

31 MAR: Fann announces Cyber Ninjas will Quarterback the audit

12 APR: Another 330 log files manually overwritten

22 APR: The AZ DNC (innocently) sues to stop the audit

05 MAY: Biden DOJ tells AZ Senate to stop; huge LOLs ensue

07 MAY: Fann pauses door-to-door verification effort (because, leftists); Maricopa violates their subpoena (again)

12 MAY: Fann tries to reason with Maricopa (guess how it went?)

14 MAY: Can't imagine why, but the auditors need a deadline extension

14 JUL: Maricopa votes to buy more Dominion machines

15 JUL: Preliminary, damning, audit findings delivered to the Senate
Note that these were damning and, while some of the preliminary findings were later revised due to new information, the final report was much, much worse.

26 JUL: Senate issues another subpoena for the same election items, because no one in government ever gets held accountable. Imagine if you petty citizens violated a subpoena. How might that go?

23 AUG: Audit Report delayed, because "covid"

26 AUG: AZ AG Brnovich threatens to withhold funding re: compliance with Senate subpoena

30 AUG: Liz Harris and AZ Patriots reveal they verified the vote door-to-door despite the "pause" (because, freedom)

09 SEP: Liza Harris and team release damning findings from their canvass

16 SEP: Fann announces audit report release for Sep 24

17 SEP: Settlement on the routers (sure...we'll see)
